Item 2.02. Results of Operations and Financial Condition.

On November 11, 2024, VAALCO Energy, Inc. (the "Company") issued a press release announcing its financial results for the third quarter of 2024 and guidance for the fourth quarter of 2024. A copy of the Company's press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

Presentation slides accompanying this earnings release are available on the Company's website at www.vaalco.com located on the "Webcasts/Presentations" page within the Investor Relations section of the site.

The information in this Current Report on Form 8-K, including Exhibit 99.1, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, and is not incorporated by reference into any filing under the Exchange Act or the Securities Act of 1933, as amended (the "Securities Act"), except as shall be expressly set forth by specific reference in such filing.

Item 7.01. Regulation FD Disclosure.

Earnings Release and Conference Call. As previously announced, the Company is hosting a conference call to discuss its financial and operational results on Wednesday morning, November 12, 2024 at 10:00 a.m. Central Time (11:00 a.m. Eastern Time and 4:00 p.m. London Time).

Dividend Announced. On November 11, 2024, the Company issued a press release announcing its quarterly cash dividend of \$0.0625 per share of common stock for the fourth quarter of 2024 (\$0.25 annualized), which is payable December 20, 2024 to stockholders of record at the close of business on November 22, 2024. A copy of the press release is attached hereto as Exhibit 99.2 and incorporated by reference herein.

The information in this Item 7.01, including Exhibit 99.2, is being furnished and shall not be deemed to be "filed" for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section. The information in this Item 7.01, including Exhibit 99.2, shall not be incorporated by reference into any filing under the Exchange Act or the Securities Act, except as shall be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.

Title: Chief Accounting Officer

VAALCO ENERGY, INC. ANNOUNCES THIRD QUARTER 2024 RESULTS

HOUSTON - November 11, 2024 - VAALCO Energy, Inc. (NYSE: EGY, LSE: EGY) ("Vaalco" or the "Company") today reported operational and financial results for the third quarter of 2024.

Third Quarter 2024 Highlights and Recent Key Items:

- Grew net revenue interest ("NRI")⁽²⁾ sales to 2,134,000 barrels of oil equivalent ("BOE"), or 23,198 barrels of oil equivalent per day ("BOEPD"), toward the upper end of guidance; and 20% above the second quarter of 2024 due to additional Côte d'Ivoire liftings;
- Reported Q3 2024 net income of \$11.0 million (\$0.10 per diluted share) and Adjusted Net Income⁽¹⁾ of \$7.9 million (\$0.08 per diluted share);
- Increased Adjusted EBITDAX⁽¹⁾ by 28% to \$92.8 million compared to Q2 2024, driven by sales increase associated with the d'Ivoire liftings;
- Achieved production of 21,770 NRI⁽²⁾ BOEPD and working interest ("WI")⁽³⁾ production of 26,709 BOEPD; both were higher than Q2 2024 by 5%;
- Posted unrestricted cash of \$89.1 million which is after \$6.6 million paid for quarterly dividend and \$12.4 million in cash capital spending for the quarter;
- Decreased production expense per BOE by 33% quarter-over-quarter to \$19.80 per BOE, at the low end of the Q3 2024 guidance range;
- Completed Production Sharing Contracts ("PSCs") with the Government of Gabon for the offshore Niosi Marin and Guduma Marin exploration blocks; and
- Announced quarterly cash dividend of \$0.0625 per share of common stock to be paid on December 20, 2024.
 - (1) Adjusted EBITDAX, Adjusted Net Income, Adjusted Working Capital and Free Cash Flow are Non-GAAP financial measures and are described and reconciled to the closest GAAP measure in the attached table under "Non-GAAP Financial Measures."
 - (2) All NRI sales and production rates are Vaalco's working interest volumes less royalty volumes, where applicable.
 - (3) All WI production rates and volumes are Vaalco's working interest volumes, where applicable.

George Maxwell, Vaalco's Chief Executive Officer commented, "We continue to deliver strong quarterly results, both operationally and financially, that are generating significant Adjusted EBITDAX and building cash on hand to fund organic growth. In addition, we remain committed to shareholder returns through our quarterly dividend policy. Our production, sales and Adjusted EBITDAX all improved compared to Q2 2024 as we realize the positive impacts from the highly accretive Côte d'Ivoire acquisition, the solid results from our Canadian drilling program, and the focus on optimizing production in Gabon and Egypt."

"In the third quarter, we announced that the results of our independent, third-party reserve engineer's calculation of proved reserves associated with the Côte d'Ivoire acquisition as of December 31, 2023 was approximately 30% greater than our initial disclosure. This strategically complementary and highly cost-effective acquisition expands our West African focus area through the addition of a sizeable producing asset that has significant upside potential and considerable future development opportunities in Côte d'Ivoire, a well-established and investment-friendly country. Additionally, the documentation has been completed on the production sharing contracts for two offshore Gabon exploration blocks where Vaalco holds a 37.5% working interest."

"We are excited about the major projects planned for 2025 that are expected to deliver a step-change in organic growth across the portfolio in the coming years. As we work to finalize the timing of our projects, we will provide more details in early 2025. We have

delivered on our focused strategy over the past three years and believe we will continue to do so with the organic growth programs across our diversified portfolio over the next few years. We remain focused on maximizing value and generating strong operational cash flow to fund our numerous organic opportunities moving forward, all while continuing to return capital to our shareholders through the quarterly dividend policy."

Operational Update

Egypt

Vaalco focused on enhancing production in the first nine months of 2024 through a series of planned workovers, as well as through interventions using the OGS-10 rig. Vaalco finalized the K-81 recompletion at the start of the first quarter which was a carry-over from its 2023 drilling activity. The EA-55 well, drilled in October 2023, was fracked and put online in January 2024. Three additional workover recompletions were completed in the third quarter of 2024 with one more in progress. With the low cost of workovers, the well economics are strongly positive.

A summary of the Egyptian workover campaign's impact in the first nine months of 2024 is presented below:

Vaalco Egypt 2024 Workover Wells

Well	Workover date	Type	Completion Zone	Perforation Interval (ft)	IP-30 Rate (BOPD)(a)
K-81	1-Jan-24	Recompletion	Asl-D	13.1	154
EA-55	10-Jan-24	Frac & Complete	Redbed	Hydraulic Frac	143
H-22	7-Feb-24	Recompletion	Yusr-A	9.8	82
K-65_ST1	14-Feb-24	Recompletion	Asl-D	13.1	43*
K-85	16-Mar-24	Recompletion	Asl-D	13.1	420
K-84	27-Mar-24	Recompletion	Asl-G	16.4	58*

K-84	13-Jun-24	Recompletion	Asl-D	19.7	430
K-80	19-Jun-24	Recompletion	Asl-D	13.1	188
K-72A	24-Jul-24	Recompletion	Asl-A	9.8	150
HE-04	27-Jul-24	ALS Change to SRP	Asl-B2	0.0	170
K-65ST1	31-Aug-24	Recompletion	Asl-B	6.6	100

a) Initial Production; 30 day duration

Canada

The 2024 drilling campaign commenced in January 2024 with the drilling of 9-12-30-4W5, which was spud on January 17, 2024. The first well was drilled to a total depth of 22,732 feet. The second well of the program, 10-12-30-4W5, was spud on February 9, 2024, and drilled to a total depth of 21,736 feet. The third well in the program, 11-12-30-4W5 was spud on February 23, 2024, and drilled to a total depth of 21,624 feet. The fourth well on the program 1-18-30-3W5 was spud on March 9, 2024, and drilled to a total depth of 20,669 feet. The drilling rig was released on March 24, 2024.

Production - impacted by sand production - Possible workover with sand screen required

Completion of the wells began in late March and was completed in April. By early May all wells were on production with strong initial rates as noted below:

Vaalco Canada 2024 Wells

Well	Spud date	Net Pay (ft)	Penetrated Pay Zones	Completion Zone	Perforation Interval (ft)	IP-30 Rate (BOEPD)
09-12-30-4W5	1/17/2024	2.75-Mile Hz (4,400m, 14,430ft)	Upper Bioturbated Cardium	Cardium	115 Stg x 15T Hydraulic Fracture Treatment	479
10-12-30-4W5	2/9/2024	2.75-Mile Hz (4,400m, 14,430ft)	Upper Bioturbated Cardium	Cardium	100 Stg x 15T Hydraulic Fracture Treatment	469
11-12-30-4W5	2/23/2024	2.75-Mile Hz (4,400m, 14,430ft)	Upper Bioturbated Cardium	Cardium	108 Stg x 15T Hydraulic Fracture Treatment	444
1-18-30-3W5	3/9/2024	2.75-Mile Hz (4,400m, 14,430ft)	Upper Bioturbated Cardium	Cardium	106 Stg x 15T Hydraulic Fracture Treatment	182

Gabon

Vaalco is currently finalizing locations and planning for the next drilling campaign at Etame that is expected to occur in mid-2025. In October 2022, Vaalco successfully completed its transition to a Floating Storage and Offloading vessel ("FSO") and related field reconfiguration processes. This project provides a low cost FSO solution that increases the storage capacity for the Etame block and improved operational performance. The Company continues to demonstrate operational excellence, production uptime and enhancement in 2024 to optimize production until the next drilling campaign.

The Company recently completed the documentation with the Government of Gabon for the offshore Niosi Marin and Guduma Marin exploration blocks. This follows the technical provisional award announced in October 2021 granting Vaalco a 37.5% non-operating working interest in the Niosi Marin Block (previously G12-13) and the Guduma Marin Block (previously H12-13) located in shallow waters offshore Gabon, with BW Energy as operator (also holding a 37.5% working interest) and Panoro Energy as a non-operating joint owner with a 25% working interest. The Niosi and Guduma blocks cover areas of 2,974 square kilometers ("km²) and 1,927 km², respectively. The Niosi Block is located adjacent to the Etame Marin Permit, where Vaalco operates a successful ongoing exploration and production campaign. To date, the Etame Marin partners have produced and discovered over 150 million barrels of oil, with multiple fields brought online. The area benefits from significant infrastructure investments, including processing facilities and a new FSO vessel installed by Vaalco in 2022 which is located adjacent to the Niosi Marin blocks. The blocks are also adjacent to BW Energy and Panoro Energy's Dussafu PSC offshore Southern Gabon, which is another area of significant successful exploration and development.

Côte d'Ivoire

During the third quarter, three liftings took place. In July, 612,773 gross barrels were lifted or 197,457 net barrels to Vaalco. In August, 681,584 gross barrels were lifted or 219,630 net barrels to Vaalco. And in September, 667,871 gross barrels were lifted or 215,211 net barrels to Vaalco.

Work with Modec, the operator of the Baobab Floating Production and Offloading Vessel ("FPSO"), on the dry docking project for the FPSO, projected to be offline in 2025, continued in the third quarter of 2024. The operator is currently preparing detailed project timetable and costings for the partners and regulator; however preliminary work including the execution of a letter of intent with Modec on April 4, 2024 which covers the key contracts to be executed, including vessel purchase, EPC, and O&M amendments, as well as selection of the disconnect and reconnect contractor, and support for the revised yard bid from Dubai dry docks among other activities.

$Financial\ Update-Third\ Quarter\ of\ 2024$

Vaalco reported net income of \$11.0 million (\$0.10 per diluted share) for the third quarter of 2024 which was down compared with net income of \$28.2 million (\$0.27 per diluted share) in the second quarter of 2024 and up compared to \$6.1 million (\$0.06 per diluted share) in the third quarter of 2023. The decrease in earnings compared with the second quarter of 2024 is driven primarily by the non-cash bargain purchase gain on the Svenska acquisition in the second quarter.

Adjusted EBITDAX totaled \$92.8 million in the third quarter of 2024, a 28% increase from \$72.5 million in the second quarter of 2024 and up 30% from \$71.4 million generated in the same period in 2023. The increase was primarily due to additional sales volumes from Côte d'Ivoire.

Total commodity sales (\$MM)	\$ 140.3	\$ 116.3	21 %	\$ 116.5	20 %

Vaalco had net revenues increase by \$24.1 million or 21% as total NRI sales volumes of 2,134,000 BOE was 21% higher than Q2 2024 and increased 18% compared to 1,812,000 BOE for Q3 2023. Q3 2024 NRI sales were toward the upper end of Vaalco's guidance. The Company expects fourth quarter 2024 NRI sales to be between 18,600 and 20,800 BOEPD.

Q3 2024 realized pricing (net of royalties) was slightly lower compared to Q2 2024 and 3% higher compared to Q3 2023.

Costs and Expenses	Q3 2024	Q3 2023	% Change Q3 2024 vs. Q3 2023	Q2 2024	% Change Q3 2024 vs. Q2 2024
Production expense, excluding offshore workovers and stock comp (\$MM)	\$ 42.2	\$ 39.9	6 %	\$ 52.4	(19 %)
Production expense, excluding offshore workovers (\$/BOE)	\$ 19.80	\$ 22.07	(10 %)	\$ 29.70	(33 %)
Offshore workover expense (\$MM)	\$ 0.1	\$ _	%	\$ 0.1	— %
Depreciation, depletion and amortization (\$MM)	\$ 47.0	\$ 32.5	44 %	\$ 33.1	42 %
Depreciation, depletion and amortization (\$/BOE)	\$ 22.04	\$ 18.00	22 %	\$ 18.78	17 %
General and administrative expense, excluding stock-based compensation (\$MM)	\$ 6.0	\$ 5.2	15 %	\$ 6.6	(9 %)
General and administrative expense, excluding stock-based compensation (\$/BOE)	\$ 2.8	\$ 2.90	(3 %)	\$ 3.8	(26 %)
Stock-based compensation expense (\$MM)	\$ 0.9	\$ 1.0	(10 %)	\$ 0.9	%
Current income tax expense (benefit) (\$MM)	\$ 33.7	\$ 2.1	1505 %	\$ 13.3	153 %
Deferred income tax expense (benefit) (\$MM)	\$ (1.1)	\$ (2.6)	(58 %)	\$ (4.0)	(73 %)

Total production expense (excluding offshore workovers and stock compensation) of \$42.2 million in Q3 2024 was a 19% decrease compared to Q2 2024 and a 6% increase compared to the same period in 2023. The decrease in Q3 2024 was primarily driven by a non-cash purchase price adjustment for the Svenska acquisition flowing through production expense and decreased operating expenditure associated with the addition of Côte d'Ivoire in the quarter. Vaalco has seen withholding tax, inflationary and industry supply chain pressure on personnel and contractor costs.

Q3 2024 and Q2 2024 had minimal offshore workover expense, while Q3 2023 had no workover expense.

Q3 2024 production expense per BOE, excluding offshore workover expense, decreased to \$19.80 per BOE which was lower than Q3 2023 and Q2 2024 primarily due to the increased sales associated with the purchase of the Côte d'Ivoire asset.

DD&A expense for Q3 2024 was \$47.0 million which was higher than \$33.1 million in Q2 2024 and higher than \$32.5 million in Q3 2023. The increase in Q3 2024 DD&A expense compared to Q2 2024 is due primarily to increased depletion associated with the addition of Côte d'Ivoire. The increase in Q3 2024 DD&A expense compared to Q3 2023 is due to higher depletable costs in Côte d'Ivoire partially offset by lower depletable costs in Gabon, Egypt, and Canada.

General and administrative ("G&A") expense, excluding stock-based compensation, decreased to \$6.0 million in Q3 2024 from \$6.6 million in Q2 2024 and increased from \$5.2 million in Q3 2023. The decrease in G&A expenses compared to Q2 2024 was primarily due to lower professional, accounting and legal fees. The increase in G&A expenses compared to Q3 2023 was primarily due to higher professional service fees, salaries and wages, and accounting and legal fees due to growth associated with the acquisition. Q3 2024 cash G&A was within the Company's guidance.

Non-cash stock-based compensation expense was \$0.9 million for Q3 2024 compared to \$1.0 million for Q3 2023. Non-cash stock-based compensation expense for Q2 2024 was \$0.9 million.

Other income (expense), net, was an expense of \$0.1 million for Q3 2024, compared to other income of \$0.2 million during Q3 2023 and an expense of \$2.0 million for Q2 2024. Other income (expense), net, normally consists of foreign currency losses. Also included in Q3 2024 amount are \$0.3 million in transaction costs related to the Svenska acquisition.

Foreign income taxes for Gabon are settled by the government taking oil in-kind. Q3 2024 income tax expense was an expense of \$32.6 million and is comprised of current tax expense of \$33.7 million and deferred tax benefit of \$1.1 million. Current quarter tax was impacted by non-deductible items (such as the Svenska transaction costs) and the change in market value of tax barrels due to Gabon State mark-to-market at quarter end. Q2 2024 income tax expense was an expense of \$9.3 million and is comprised of current tax expense of \$13.3 million and deferred tax benefit of \$4.0 million. Q3 2023 income tax expense was an expense of \$25.8 million, comprised of \$26.8 million of current tax expense and a deferred tax benefit of \$1.0 million. For all periods, Vaalco's overall effective tax rate was impacted by non-deductible items associated with tax rates in foreign jurisdictions higher than the US statutory rate and by non-deductible items associated with operations.

Taxes extinguished by jurisdiction are as follows:

Three months ended September 30, 2004	_	\$	7,235	_	_	\$ 4,531	_	\$ 11,766

Financial Update – First Nine Months of 2024

WI Sales for the first nine months of 2024 increased to 6,709 MBOE compared to 6,594 MBOE in the first nine months of 2023. The increase was driven primarily by the Côte d'Ivoire acquisition. Crude oil sales are a function of the number and size of crude oil liftings in each quarter and do not always coincide with volumes produced in any given period.

The average realized crude oil price for the first nine months of 2024 was \$65.99 per barrel, representing an increase of 6.0% from \$62.48 realized in the first nine months of 2023. This increase in crude oil price reflects the increase in commodity pricing over the past year.

The Company reported net income for the nine months ended September 30, 2024 of \$46.8 million, which compares to \$16.4 million for the same period of 2023. The increase in net income for the nine months ended September 30, 2024 compared to the same period in 2023 was primarily due to the bargain purchase gain related to the Svenska acquisition in April, as well as higher sales and realized pricing.

Capital Investments/Balance Sheet

For the third quarter of 2024, net capital expenditures totaled \$12.4 million on a cash basis and \$26.6 million on an accrual basis. These expenditures were primarily related to costs associated with the development drilling programs in Egypt and Canada, as well as maintenance, project costs and long lead items for Gabon and Côte d'Ivoire.

At the end of the third quarter of 2024, Vaalco had an unrestricted cash balance of \$89.1 million. Working capital at September 30, 2024 was \$60.6 million compared with \$100.7 million at December 31, 2023, while Adjusted Working Capital at September 30, 2024 totaled \$73.4 million.

In Egypt, the Company received written confirmation from EGPC that \$51.7 million was recognized in their June Accounts Payable as owed to Company for its Merged Concession effective date adjustment, from which they will offset \$11.2 million to satisfy any obligation of Vaalco or its subsidiaries in connection with the TransGlobe combination. The Company invoiced EGPC for the final receivable amount in June 2024.

Quarterly Cash Dividend

Vaalco paid a quarterly cash dividend of \$0.0625 per share of common stock for the third quarter of 2024 on September 20, 2024. The Company also announced its next quarterly cash dividend of \$0.0625 per share of common stock for the fourth quarter of 2024 (\$0.25 annualized), to paid on December 20, 2024 to stockholders of record at the close of business on November 22, 2024. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to approval by the Vaalco Board of Directors (the "Board").

Hedging

The Company continued to opportunistically hedge a portion of its expected future production to lock in strong cash flow generation to assist in funding its capital and shareholder returns programs.

The following includes hedges remaining in place as of the end of the third quarter of 2024:

Settlement Period	Type of Contract	Index	Average Monthly Volumes	Weighted Average Put Price		
			(Bbls)a	(per Bbl)		
July 2024 - December 2024	Put Options	Dated Brent	125,000	\$ 65.00		

Settlement Period	Type of Contract	Index	Average Monthly Volumes	Weighted Average SWAP Price in CAD			
			(GJ) ^b	(per GJ)			
November 2024 - March 2025	Swap	AECO (7A)	67,000	\$	2.80		

a) One gigajoule (GJ) equals one billion joules (J). A gigajoule of natural gas is about 25.5 cubic metres at standard conditions.

Subsequent to September 30, 2024, the Company entered into the following additional derivative contracts to cover its future anticipated production:

				weighted Average fledge file (5/Dbl)				
			Average Volumes Hedged					
Settlement Period	Type of Contract	Index	(Bbl)]	Floor		Ceiling	
January 2025 - March 2025	Collars	Dated Brent	70,000	\$	65.00	\$	85.00	
April 2025 - June 2025	Collars	Dated Brent	70,000	\$	65.00	\$	81.00	

Weighted Average Hedge Price (\$/Phl)

2024 Guidance:

Conference Call

As previously announced, the Company will hold a conference call to discuss its third quarter 2024 financial and operating results tomorrow, Tuesday, November 12, 2024, at 9:00 a.m. Central Time (10:00 a.m. Eastern Time and 3:00 p.m. London Time). Interested parties may participate by dialing (833) 685-0907. Parties in the United Kingdom may participate toll-free by dialing 08082389064 and other international parties may dial (412) 317-5741. Participants should request to be joined to the "Vaalco energy Third Quarter 2024 Conference Call." This call will also be webcast on Vaalco's website at www.vaalco.com. An archived audio replay will be available on Vaalco's website.

A "Q3 2024 Supplemental Information" investor deck will be posted to Vaalco's website prior to its conference call on November 12, 2024 that includes additional financial and operational information.

About Vaalco

Vaalco, founded in 1985 and incorporated under the laws of Delaware, is a Houston, Texas, USA based, independent energy company with a diverse portfolio of production, development and exploration assets across Gabon, Egypt, Côte d'Ivoire, Equatorial Guinea, Nigeria and Canada.

Forward Looking Statements

This press release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created by those laws and other applicable laws and "forward-looking information" within the meaning of applicable Canadian securities laws. Where a forward-looking statement expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. All statements other than statements of historical fact may be forward-looking statements. The words "anticipate," "believe," "estimate," "expect," "intend," "forecast," "outlook," "aim," "target," "will," "could," "should," "may," "likely," "plan" and "probably" or similar words may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking statements in this press release include, but are not limited to, statements relating to (i) estimates of future drilling, production, sales and costs of acquiring crude oil, natural gas and natural gas liquids; (ii) expectations regarding VAALCO's ability to effectively integrate assets and properties it has acquired as a result of the Svenska acquisition into its operations; (iii) expectations regarding future exploration and the development, growth and potential of VAALCO's operations, project pipeline and investments, and schedule and anticipated benefits to be derived therefrom; (iv) expectations regarding future acquisitions, investments or divestitures; (v) expectations of future dividends; (vi) expectations of future equity and enterprise value.

Such forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by the forward-looking statements. These risks and uncertainties include, but are not limited to: risks relating to any unforeseen liabilities of VAALCO; the ability to generate cash flows that, along with cash on hand, will be sufficient to support operations and cash requirements; risks relating to the timing and costs of completion for scheduled maintenance of the FPSO servicing the Baobab field; and the risks described under the caption "Risk Factors" in VAALCO's 2023 Annual Report on Form 10-K filed with the SEC on March 15, 2024 and subsequent Quarterly Reports on Form 10-Q filed with the SEC.

Dividends beyond the fourth quarter of 2024 have not yet been approved or declared by the Board of Directors for VAALCO. The declaration and payment of future dividends remains at the discretion of the Board and will be determined based on VAALCO's financial results, balance sheet strength, cash and liquidity requirements, future prospects, crude oil and natural gas prices, and other factors deemed relevant by the Board. The Board reserves all powers related to the declaration and payment of dividends. Consequently, in determining the dividend to be declared and paid on VAALCO common stock, the Board may revise or terminate the payment level at any time without prior notice

Any forward-looking statement made by Vaalco in this press release is based only on information currently available to Vaalco and speaks only as of the date on which it is made. Except as may be required by applicable securities laws, Vaalco undertakes no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.

WI CPR Reserves

WI CPR reserves represent proved (1P) and proved plus probable (2P) estimates as reported by Petroleum Development Consultants Limited and prepared in accordance with the definitions and guidelines set forth in the 2018 Petroleum Resources Management Systems approved by the Society of Petroleum Engineers. The SEC definitions of proved and probable reserves are different from the definitions contained in the 2018 Petroleum Resources Management Systems approved by the Society of Petroleum Engineers. As a result, 1P and 2P WI CPR reserves may not be comparable to United States standards. The SEC requires United States oil and gas reporting companies, in their filings with the SEC, to disclose only proved reserves after the deduction of royalties and production due to others but permits the optional disclosure of probable and possible reserves in accordance with SEC definitions.

1P and 2P WI CPR reserves, as disclosed herein, may differ from the SEC definitions of proved and probable reserves because:

- Pricing for SEC is the average closing price on the first trading day of each month for the prior year which is then held flat in the future, while the 1P and 2P WI CPR pricing assumption was \$79.79 per barrel of oil beginning in 2024, \$69.79 in 2025, and inflating 2% thereafter;
- Lease operating expenses are typically not escalated under the SEC's rules, while for the WI CPR reserves estimates, they are escalated at 2% annually beginning in 2024.

Management uses 1P and 2P WI CPR reserves as a measurement of operating performance because it assists management in strategic planning, budgeting and economic evaluations and in comparing the operating performance of Svenska to other companies. Management believes that the presentation of 1P and 2P WI CPR reserves is useful to its international investors, particularly those that invest in companies trading on the London Stock Exchange, in order to better companie reserve information to other London Stock Exchange-traded companies that report similar measures. However, 1P and 2P WI CPR reserves should not be used as a substitute for proved reserves calculated in accordance with the definitions prescribed by the SEC. In evaluating VAALCO's business, investors should rely on VAALCO's SEC proved reserves and consider 1P and 2P WI CPR reserves only supplementally.

Other Oil and Gas Advisories

Investors are cautioned when viewing BOEs in isolation. The Svenska reserves estimates as of October 1, 2023 were calculated using a BOE conversion ratio of six thousand cubic feet of natural gas to one barrel of oil equivalent (6 MCF: 1 Bbl). The Svenska reserves estimates as of December 31, 2023 were calculated using a BOE conversion ratio of five thousand eight hundred cubic feet of natural gas to one barrel of oil equivalent (5.8 MCF: 1 Bbl). BOE conversion ratio is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of crude oil as compared to natural gas is significantly different from the energy equivalencies described above, utilizing such equivalencies may be incomplete as an indication of value.

Inside Information

This announcement contains inside information as defined in Regulation (EU) No. 596/2014 on market abuse which is part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("MAR") and is made in accordance with the Company's obligations under article 17 of MAR. The person responsible for arranging the release of this announcement on behalf of VAALCO is Matthew Powers, Corporate Secretary of VAALCO.

NON-GAAP FINANCIAL MEASURES

Management uses Adjusted Net Income to evaluate operating and financial performance and believes the measure is useful to investors because it eliminates the impact of certain non-cash and/or other items that management does not consider to be indicative of the Company's performance from period to period. Management also believes this non-GAAP measure is useful to investors to evaluate and compare the Company's operating and financial performance across periods, as well as facilitating comparisons to others in the Company's industry. Adjusted Net Income is a non-GAAP financial measure and as used herein represents net income, deferred income tax expense (benefit), unrealized commodity derivative loss (gain), bargain purchase gain on the Svenska Acquisition, FPSO demobilization, transaction costs related to the Svenska acquisition and non-cash and other items.

Adjusted EBITDAX is a supplemental non-GAAP financial measure used by VAALCO's management and by external users of the Company's financial statements, such as industry analysts, lenders, rating agencies, investors and others who follow the industry, as an indicator of the Company's ability to internally fund exploration and development activities and to service or incur additional debt. Adjusted EBITDAX is a non-GAAP financial measure and as used herein represents net income, interest expense (income) net, income tax expense (benefit), depletion, depreciation and amortization, exploration expense, FPSO demobilization, non-cash and other items including stock compensation expense, Bargain purchase gain on the Svenska Acquisition, other operating (income) expense, net, non-cash purchase price adjustment, transaction costs related to acquisition, credit losses and other and unrealized commodity derivative loss (gain).

Management uses Adjusted Working Capital as a transition tool to assess the working capital position of the Company's continuing operations excluding leasing obligations because it eliminates the impact of discontinued operations as well as the impact of lease liabilities. Under the lease accounting standards, lease liabilities related to assets used in joint operations include both the Company's share of expenditures as well as the share of lease expenditures which its non-operator joint venture owners' will be obligated to pay under joint operating agreements. Adjusted Working Capital is a non-GAAP financial measure and as used herein represents working capital excluding working capital attributable to discontinued operations and current liabilities associated with lease obligations.

Management uses Free Cash Flow to evaluate financial performance and to determine the total amount of cash over a specified period available to be used in connection with returning cash to shareholders, and believes the measure is useful to investors because it provides the total amount of net cash available for returning cash to shareholders by adding cash

^{*}Stock compensation associated with production expense excluded from the three months ended September 30, 2024 and 2023 and June 30, 2024 are immaterial.

^{**}General and administrative expenses include \$0.52, \$0.57 and \$0.51 per barrel of oil related to stock-based compensation expense in the three months ended September 30, 2024 and 2023 and June 30, 2024, respectively.

generated from operating activities, subtracting amounts used in financing and investing activities, effects of exchange rate changes on cash and adding back amounts used for dividend payments and stock repurchases. Free Cash Flow is a non-GAAP financial measure and as used herein represents net change in cash, cash equivalents and restricted cash and adds the amounts paid under dividend distributions and share repurchases over a specified period.

Free Cash Flow has significant limitations, including that it does not represent residual cash flows available for discretionary purposes and should not be used as a substitute for cash flow measures prepared in accordance with GAAP. Free Cash Flow should not be considered as a substitute for cashflows from operating activities before discontinued operations or any other liquidity measure presented in accordance with GAAP. Free Cash Flow may vary among other companies. Therefore, the Company's Free Cash Flow may not be comparable to similarly titled measures used by other companies.

Adjusted EBITDAX and Adjusted Net Income have significant limitations, including that they do not reflect the Company's cash requirements for capital expenditures, contractual commitments, working capital or debt service. Adjusted EBITDAX, Adjusted Net Income, Adjusted Working Capital and Free Cash Flow should not be considered as substitutes for net income (loss), operating income (loss), cash flows from operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. Adjusted EBITDAX and Adjusted Net Income exclude some, but not all, items that affect net income (loss) and operating income (loss), and the calculation of these measures may vary among other companies. Therefore, the Company's Adjusted EBITDAX, Adjusted Net Income, Adjusted Working Capital and Free Cash Flow may not be comparable to similarly titled measures used by other companies.

The tables below reconcile the most directly comparable GAAP financial measures to Adjusted Net Income, Adjusted EBITDAX, Adjusted Working Capital and Free Cash Flow.

VAALCO Energy, Inc. Declares Fourth Quarter 2024 Dividend

HOUSTON, Nov. 11, 2024 (GLOBE NEWSWIRE) -- VAALCO Energy, Inc. (NYSE: EGY; LSE: EGY) ("Vaalco" or the "Company") today declared its quarterly cash dividend of \$0.0625 per share of common stock for the fourth quarter of 2024 (\$0.25 annualized), which is payable on December 20, 2024, to stockholders of record at the close of business on November 22, 2024. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to approval by the Board of Directors.

George Maxwell, Vaalco's Chief Executive Officer, commented, "We are pleased to announce our fourth quarter 2024 dividend which is underpinned by our ongoing operational and financial success that has allowed us to continue returning cash to our shareholders through 12 consecutive dividends since early 2022. We paid \$0.13 per share in 2022, \$0.25 per share in 2023 and with this declaration, we are delivering another \$0.25 per share in 2024. The successful execution of our strategy has allowed us to pay a sustainable, meaningful dividend to our shareholders while we grow Vaalco with both organic development activities and inorganic growth."

About Vaalco

Vaalco, founded in 1985 and incorporated under the laws of Delaware, is a Houston, Texas, USA based, independent energy company with a diverse portfolio of production, development and exploration assets across Gabon, Egypt, Cote d'Ivoire, Equatorial Guinea, Nigeria and Canada.

Forward Looking Statements

This press release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created by those laws and other applicable laws and may also include "forward-looking information" within the meaning of applicable Canadian securities laws (collectively, "forward-looking statements"). Where a forward-looking statement expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. All statements other than statements of historical fact may be forward-looking statements. The words "anticipate," "believe," "estimate," "expect," "intend," "forecast," "outlook," "aim," "target," "will," "could," "should," "may," "likely," "plan" and "probably" or similar words may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this press release include, but are not limited to, statements relating to expectations of future dividends to stockholders.

Such forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by the forward-looking statements. These risks and uncertainties include, but are not limited to the risks described under the caption "Risk Factors" in Vaalco's 2023 Annual Report on Form 10-K filed with the SEC on March 15, 2024 and subsequent Quarterly Reports on Form 10-Q.

Dividends beyond the fourth quarter of 2024 have not yet been approved or declared by the Board of Directors. The declaration and payment of future dividends remain at the discretion of the Board of Directors and will be determined based on Vaalco's financial results, balance sheet strength, cash and liquidity requirements, future prospects, crude oil and natural gas prices, and other factors deemed relevant by the Board of Directors. The Board of Directors reserves all powers related to the declaration and payment of dividends. Consequently, in determining the dividend to be declared and paid on Vaalco's common stock, the Board of Directors may revise or terminate the payment level at any time without prior notice.

Inside Information

This announcement contains inside information as defined in Regulation (EU) No. 596/2014 on market abuse which is part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("MAR") and is made in accordance with the Company's obligations under article 17 of MAR. The person responsible for arranging the release of this announcement on behalf of VAALCO is Matthew Powers, Corporate Secretary of VAALCO.
